ON-WALL/OFF-WALL THEATER CENTER/FRONT/SURROUND

FULLY POWERED VERSATILE HYBRID ELECTROSTATIC LOUDSPEAKER

Internally powered with a high-resolution 150 watt switching amplifier, the Feature allows an unprecedented level of system connection flexibility. A standard RCA line-level input minimizes wire clutter by connecting directly to on-wall televisions (and other devices) without the need for external amps. Additionally, standard speaker-level connections allow the fully powered Feature to integrate with audio systems where RCA connection is not possible. Using the Feature with a traditional receiver will deliver an enhanced sonic experience without the need to upgrade to expensive electronics.
