

Motion®
MARTIN LOGAN 20

Inspired by MartinLogan's ultra-high-end electrostatic loudspeakers, the Motion® Series was created to provide stunning sound for your ultimate-performance home theater or stereo.

MartinLogan's dedicated in-house engineers carefully crafted the Motion Series to create an extremely affordable and compact product line that seamlessly blends our exquisite Folded Motion™ transducers with powerful, compact bass technology. The result is a smooth, refined sound with stunning dynamic range and jaw-dropping clarity. Included here are just a few of the outstanding awards and accolades the Motion Series has received.

Finish shown: Gloss Black

"MartinLogan's Motion 20 is a compelling option for anyone shopping for speakers in the range of \$1500 to \$2000/pair. It conveys music in a detailed manner, with pinpoint imaging and surprisingly powerful bass for its size. And while I generally preferred GoldenEar Technology's more expensive Triton Five for classical music, the Motion 20 was in some ways the more versatile speaker - and better equipped to rock out. If you want dynamic, extended sound from a compact floorstander, the MartinLogan Motion 20 can deliver it." - Al Griffin
